

# Indoor Air Quality Association San Francisco Chapter Workshop Announcement

- 1) Environmental Insurance and Why Your Company Needs It**  
**2) Basic Structural Drying and Introduction to Water Damage Restoration**  
**September 8th, 2011**

Calling all indoor environmental professionals and contractors! This upcoming IAQA-SF fall meeting will cover two important topics that you don't want to miss. The first presentation will be on environmental liability insurance and how it affects your company. Common insurance terms, mistakes and frequently asked questions will be discussed. The second topic will be basic structural drying and an introduction to water damage restoration. Learn the essentials of the industry, psychrometry, inspection and drying equipment. Overviews and a case study will also be presented. We look forward to seeing you in September!

### About the Instructors

**Brian McFarland** is the Vice President for Legends Environmental Insurance Services LLC, which has been specializing in Environmental Insurance since 1986 and is the only pre-approved insurance vendor for the IAQA.

**John Temoyan** is the Regional Director of Business Development for Har-Bro Inc. With his contractors license, IICRC certification and more than 20 years experience, John has performed numerous training sessions surrounding restoration, reconstruction and disaster preparedness. His casual yet passionate style of presenting keeps audiences entertained and engaged.

### About the Lunch Sponsor

Har-Bro is a native West Coast company that has been in the property restoration business since 1961 and have experienced a broad spectrum of natural disasters and emergencies. These disasters include earthquakes, wildfires, windstorms, monsoons, mudslides, tornados, rainstorms and other seasonal storms. In addition to the many natural disasters, Har-Bro has been successfully handling the worst man-made disasters such as explosions and fires, roof collapses and vandalism as well as the very common burst pipes and sewage inundation that cause water damage. Our corporate structure is built so that no disaster is too large or small for us to handle. We have nine offices strategically located in major metropolitan areas on the West Coast. This allows us to immediately respond to our clients during any emergency. **For more information, please visit their website at [www.harbro.com](http://www.harbro.com).**
